

SOLIMAN Sylvain

Inria Saclay-Île-de-France – EPI Lifeware
Bât. A. Turing, 1 r Honoré d'Estienne d'Orves
Campus de l'École Polytechnique
91120 PALAISEAU – FRANCE

Phone: (+33) 1 74854243
Email: Sylvain.Soliman@inria.fr
URL: <http://lifeware.inria.fr/~soliman/>
Born: December 5, 1973—Paris, France
Nationality: French

Current Position

Chargé de Recherche Hors Classe (CRHC), Inria Saclay-Île-de-France, EPI Lifeware

Research Interests

Constraint Programming • Model-Checking • Petri nets • Computational Systems Biology
• Structural analysis of ODE-based models.

Experience

- 2024-... Associate Editor for PLoS Computational Biology
- 2020-2024 Co-supervision (50%), with A. Niarakis, of Sahar Aghakhani's Ph.D. on *Computational modeling of the metabolic reprogramming in Rheumatoid Arthritis synovial fibroblasts and cancer associated fibroblasts*.
- 2023-... President of the Scientific Commission of Inria Saclay (before that, member of said commission since 2017)
- 2020-2021 Giving TDs in the CSE102 course on “Computer Programming” for Polytechnique’s Bachelor program (first year)
- 2019-2020 Teaching INF473L MODAL on “Programming in the Language of Life” for Polytechnique 2nd year students.
- 2019-2021 Teaching CSE301 course on “Logic Programming” in Polytechnique’s Bachelor program (third year).
- 2018-2021 Co-supervision (50%), with F. Fages, of Éléonore Bellot’s Ph.D. on *Model Reduction based on Tropical Equilibration*.
- 2018-2021 Teaching INF555 course on “Constraint-based Modeling & Algorithms for Decision Making” in the AI and Advanced Visual Computing Master, and Polytechnique 3rd year.
- 2018 Supervision of Adrien Baudier for an École Centrale internship leading to a publication in the Journal of Theoretical Biology.

- 2017 Co-supervision (50%), with F. Fages, of Arthur Carcano for an ENS internship, leading to a presentation at the CMSB conference.
- 2010–2015 Co-supervision (50%), with F. Fages, of Steven Gay's Ph.D. *Subgraph Epimorphisms: Theory and Application to Model Reductions in Systems Biology*
- 2009–2013 Co-supervision (50%), with F. Fages, of Faten Nabli's Ph.D. *Investigating Petri nets structural properties for biochemical networks analysis*, and of many M.Sc. interns, notably from different IITs (India).
- 2009–2011 Co-supervision of Elisabetta De Maria's PostDoc. She now has a permanent position at Nice's University in Computational Systems Biology.
- 2009 Member of the AERES Evaluation Committee of the LIRMM laboratory (Montpellier, France) as Constraint Programming expert
- 2006–... Regular participation in the Program Committees of JFPC and WCB. Punctual participations for other conferences (e.g. CSCLP'07). Article reviewing for TCS, FLOPS, CMSB, PPDP, PLoS One, AMS Math Reviews, BMC Systems Biology, etc. Since 2019, member of the PC of CSBio and in 2019 Chair for the Life-Science track of CP.
- 2005–... Teaching the Constraint Programming course in the MPRI Masters program
- 2005–2008 Secretary of the ERCIM Working Group on Constraints.
- 2004–2006 Co-supervision of Laurence Calzone's PostDoc. She now has a permanent position at Institut Curie in Systems Biology.
- 2003–... Co-developer of the modelling platform **BIOCHAM** and since 2010 of the **Nicotine** solver.
- 2003–2004 Teaching assistant for Java at École Polytechnique
- 2001–2002 Ingénieur de l'Armement at DGA's *Géographie, Imagerie, Perception* lab in Arcueil, France. Responsible for IT Systems' Security.

Honors & Awards

- 2024–2028 Scientific Excellence award from Inria
- 2014 Co-author with Pauline Traynard of the Best Student Paper Award article at CMSB'14
- 2011–2015 Scientific Excellence award from Inria
- 2007 Selected to be among the six young researchers representing "Advances in Information Sciences", for a talk at French Academy of Sciences on the use of formal methods of computer science for Systems Biology.
- 2002 Best Graphical Interface Concept award from the UIST Conference, with F.Fages

Education

- 2016 Habilitation à Diriger des Recherches, University Paris Sud *A structural perspective on the dynamics of biochemical systems*
- 1999–2001 Ph.D. in Computer Science, University Paris Diderot. *Programmation concurrente avec contraintes et logique linéaire*, under the supervision of F. Fages.
- 1996–1997 M.Sc. in Computer Science, University Paris Diderot.
- 1993–1996 École Polytechnique.

Publications in the last 5 years
